

MUMBUNI NORTH WARD 2023

The People's Manifesto

The Israelites groaned and cried out under their burden of slavery and their cry for deliverance ascended to God. Deuteronomy 26:7

The people of Mumbuni North have for long yearned for steward leadership, anchored in integrity, transparency, accountability and above all the fear of God.

It is on these basis that I, **Jones Benson Muema**, being a son of this great ward offer myself to serve my people.

Below is my promise to my people

Function	2023 - 2027 Action Plan
Early Childhood Education (ECD)	<p>While appreciating that education is the only investment that directly touches on our children's future.</p> <p>I commit to lobby and mobilize resources to have ECD centers closer to the people. And most importantly have trained personnel deployed to these centers.</p>
Health	<p>Health is one of the devolved functions but for the last 10 years we have experienced enormous challenge in accessing quality health and medical services.</p> <p>I commit to actively lobby both at county and higher levels to have a well-equipped dispensary in every village within our ward. With unequalled emphasis on mother-child care.</p>
Land	<p>Land is an emotive subject that most leaders would rather evade indulging into.</p> <p>I will however, dare face it head on and sponsor a Legislative Bill through the County Assembly to make it easier for our people to acquire necessary ownership deeds for their land so that they can engage in commercial enterprise and access credit from banks to develop their parcels of land.</p>

Roads	<p>Accessibility to public roads is a matter often sidestepped by many, but I am committed to confronting this challenge directly.</p> <p>I pledge to champion a Legislative Bill through the local council to streamline the process of creating accessible roads for our community, facilitating not only better mobility but also fostering economic opportunities and ensuring safety for all.</p>
Agriculture	<p>Appreciating that most of the residents of Mumbuni North do not own large tracks of land.</p> <p>I endeavor to engage with the Agricultural Department of the County Government to have our people trained and facilitated to engage in commercial greenhouse farming, poultry farming and zero grazing of dairy cattle</p>
Water	<p>Our people deserve to have safe, clean and affordable water provision both for domestic use and for agriculture.</p> <p>I therefore commit to work very closely with the relevant organs within the county and external partners to dig boreholes in areas that are largely affected by water scarcity within the Ward.</p>
Gender, Youth and Community Service	<p>Being a young person, I have first-hand information and experience in youth issues and challenges faced by our young people in pursuit of their dreams, visions and ambitions.</p> <p>I therefore come in to fix this by sponsoring and pushing Bills through the County Assembly to ensure that a minimum of 30% of all county jobs and tenders are given to deserving and qualifying young people aged thirty five (35) and below.</p> <p>I will also lobby and reach out to like-minded organizations and financial institutions to ease access to business and commercial credit facilities to our young people to enable them venture into self-employment.</p> <p>On gender issue, I intend to organize fund drives and grants to women chamas within the Ward to empower our mothers who venture into income generating activities and SME.</p>
PLWD	<p>Disability is not inability. As we acknowledge the government and other leaders of the bold step they have taken to support the PLWD, we are not yet there.</p> <p>I will work with relevant bodies to offer an environment of inclusivity, accessibility, and justice for all, regardless of their abilities or differences.</p>

Integrity transparency and accountability	To me, integrity is not just a matter of speaking but walking the talk and the spirit of the Chapter Six (6) of the Kenyan Constitution. I therefore append my commitment in writing that all my dealings and undertakings will be above board and I will operate an open office kind of leadership where all people of Mumbuni North will hold me to account. On this one, there will be no excuse whatsoever and I will report back to the people who will remain my bosses throughout my service as their MCA.
--	--

Building on the above mentioned commitment and with the support of the Mumbuni North Ward electorate, I am so much eager to see the transformation of our Ward...

Together, we will rebuild, restore and develop our ward. Rewriting our own dreams. One story at a time.

Thanks for all. Pamoja tujenge Mumbuni North. [Mungu Mbele](#)
